

*Correction and additional notes*

Owing to an unfortunate oversight, the pagination of *article 5* by M. E. Omatsola conflicts in part with that of *article 4* by O. Stephansson. The numbering of *article 5* should run from 79 to 162. The heading at the top of page 79 should, therefore, read:

Bull geol. Instn Univ. Upsala N. S. 3, 5: 79—162, 1971

The internal page references of this paper are consistent.

The following additional notes are to be made to *article 1*, as a result of the renumbering of some of the figured material, by the Department of Palaeontology at the British Museum, Natural History, London.
