

The Students Association of Natural Science. Upsala.

Geological Division.

Meeting January 26th 1928.

13 persons present.

The following officers were appointed:

D. MALMQVIST, Secretary.

P. THORSLUND, Treasurer.

B. ASKLUND and P. THORSLUND, Reviewers.

Doc. B. ASKLUND gave a lecture on »Some impressions from a travel in the East of Finland».

Meeting February 9th 1928.

34 persons present.

Prof. C. WIMAN spoke about »Dinosaurs of China» and demonstrated a big example mounted up in the paleontological institution. See *Palæontologia sinica*. Ser. C. Vol. VI. Fasc. 1. Peiping 1929.

Meeting March 5th 1928.

15 persons present.

Prof. H. G. BACKLUND spoke about »Land-surfaces older than jotnium».

Mr. T. KROKSTRÖM reviewed Walter Wahl's hypothesis of the constitution of the alumosilicates.

Meeting April 2nd 1928.

12 persons present.

Prof. C. WIMAN gave a lecture on a new order of reptiles. (See this Bulletin.)

Meeting April 19th 1928.

13 persons present.

Prof. A. G. HÖGBOM gave a lecture on »Basic inclusions in hornblende-bearing granites».

Mr. B. ERIKSSON read a paper on a new hypothesis of the genesis of the Silurian formation of Dalecarlia.

Meeting September 28th 1928.

14 persons present.

The following officers were appointed.

T. KROKSTRÖM, Secretary.

P. THORSLUND, Treasurer.

E. WIMAN and D. MALMQVIST, Reviewers.

Dr. N. G. HÖRNER spoke about »Late- and postglacial level-variations in Massachusetts».

Meeting October 12th 1928.

16 persons present.

Prof. H. G. BACKLUND spoke on the excursions of the Geological Congress last summer.

Mr. E. WIMAN gave an account of the ore-prospecting in Northern Rhodesia.

Meeting November 2nd 1928.

12 persons present.

Dr. ASTRID CLEVE-V. EULER gave a lecture on »The postglacial limits and the first colonization in Middle Sweden».

Mr. E. WIMAN reviewed: Mining Journals.

Meeting November 30th 1928.

20 persons present.

Prof. C. WIMAN gave a lecture on »A Dinosaur of China». (See *Palæontologia sinica*. Ser. C.)

Mr. D. MALMQVIST reviewed: New theories of the formation of petroleum.

Meeting December 12th 1928.

18 persons present.

Mr. P. THORSLUND spoke about »New investigations in the later ordovician of Dalecarlia».

Mr. E. WIMAN reviewed: Radioactivity in the crust of the earth.

Meeting January 24th 1929.

15 persons present.

The following officers were appointed:

T. KROKSTRÖM, Secretary.

E. GRIP, Treasurer.

E. WIMAN and G. SÄVE-SÖDERBERGH, Reviewers.

Dr. E. WEGMANN gave a lecture on »The tectonic of primary rocks in Finland».

Meeting February 14th 1929.

17 persons present.

Prof. A. G. HÖGBOM gave an account of »Some subsoil water phenomena». (See Upsala Nya Tidning, February 17th 1929.)

Meeting February 28th 1929.

12 persons present.

Mr. E. WIMAN read a paper on »Something about ores and intrusives in Northern Rhodesia».

Mr. T. KROKSTRÖM reviewed: Hans Cloos, Bau und Bewegung der Gebirge.

Meeting March 21th 1929.

13 persons present.

Doc. B. ASKLUND gave a lecture on »Swedish rocks rich in potash». (See S. G. U. Ser. C 354.)

Meeting April 16th 1929.

12 persons present.

Mr. T. KROKSTRÖM reviewed: F. Grout, Anorthosite and granite as differentiates of a diabase sill at Pigeon Point, Minnesota.

Doc. B. ASKLUND reviewed: Description to the geological map-sheet of »Gusum». (See S. G. U. Ser. Aa 159.)

Mr. P. THORSLUND gave an account of a new started German sea-geological station at the North Sea.

Meeting May 3rd 1929.

13 persons present.

Prof. H. HANSEN spoke about his latest investigations in the Finnish jatul in the neighbourhood of Soanlahti. (See G. F. F. 51 p. 411.)

Meeting October 10th 1929.

20 persons present.

The following officers were appointed:

T. KROKSTRÖM, Secretary.

E. GRIP, Treasurer.

P. THORSLUND and E. GRIP, Reviewers.

Prof. C. WIMAN gave an account of the new building just now being erected for the Paleontological Institution. (See Uppsala Nya Tidning, October 11th 1929.)

Mr. E. GRIP reviewed some papers on Gem stones.

Meeting October 24th 1929.

16 persons present.

Prof. H. G. BACKLUND demonstrated the newly appeared map of the highlands of Västerbotten by him and prof. P. QUENSEL. (See S. G. U. Ser. Ca 21.)

Meeting November 14th 1929.

35 persons present.

Mr. P. THORSLUND gave an account of the Swedish expedition to Spitzbergen this year.

Mr. K. FAHLANDER gave an account of the ceratopyge-limestone at Tossåsen, Jämtland.

Meeting November 28th 1929.

6 persons present.

Mr. G. SÄVE-SÖDERBERGH spoke about »The organisation and life of the Ammonites».

Mr. E. GRIP reviewed: G. Silberstein, Chemisch geologische Wellen.

Meeting December 13th 1929.

20 persons present.

Prof. H. G. BACKLUND gave a lecture on »New opinions and developments in the hypothesis of the displacement of the continents». (See Tidningen Upsala, December 14th 1929.)
