

The Students' Association of Natural Science. Upsala.

Geological Division.

Meeting January 28th, 1932.

16 persons present.

The following functionaries were appointed:

E. GRIP, Secretary.

W. LARSSON, Treasurer.

D. MALMQVIST and P. THORSLUND, Reviewers.

Mr. G. SÄVE-SÖDERBERGH spoke about »Notes on the Upper Devonian Old Red and its development in East-Greenland.»

Meeting February 11th, 1932.

9 persons present.

Mr. T. KROKSTRÖM gave a lecture on »Behaviour of magmatic rest-solutions».

Mr. E. GRIP reviewed a paper on Pacific lavas.

Mr. CHR. ENBERG reviewed two papers on determinations of grain size.

Meeting February 25th, 1932.

22 persons present.

Mr. W. LARSSON gave a lecture on »Characteristics of analyses of Swedish rocks».

Mr. G. LINDGREN gave a lecture on »A Silurian section in Östergötland».

Meeting March 10th, 1932.

16 persons present.

Mr. J. EKLUND spoke about »Coal, bitumen and hydrocarbons in Sweden».

Meeting March 22th, 1932.

13 persons present.

Mr. P. THORSLUND gave a lecture on »Some aspects on the Ordovician in Sweden, with special regards to its development in Dalecarlia».

Mr. D. MALMQVIST gave an account of »The meteorite of Muonionalusta».

Meeting April 14th, 1932.

17 persons present.

Prof. H. BACKLUND gave a lecture on »Some aspects on orogenesis, with special regards to N-E. Greenland».

Meeting October 5th, 1932.

39 persons present.

The following functionaries were appointed:

W. LARSSON, Secretary.

G. WÄNGSJÖ, Treasurer.

D. MALMQVIST and J. ÖSTER, Reviewers.

Prof. C. WIMAN demonstrated the new Paleontological Institution.

Meeting October 20th, 1932.

29 persons present.

Prof. A. G. HÖGBOM gave a lecture on »Some notes to the geology of the neighbourhood of Upsala» (owing to G. DE GEER: 'The Quaternary geology of the neighbourhood of Stockholm'). (See Tidningen Upsala, October 22th, 1932.)

Meeting November 4th, 1932.

18 persons present.

Prof. J. J. SEDERHOLM gave a lecture on »Late results in Finnish research into primary rocks».

Meeting November 17th, 1932.

16 persons present.

Mr. J. ÖSTER gave a lecture on »Quaternary geological observations in the upper drainage area of the river Ljungan».

Meeting December 8th, 1932.

19 persons present.

Mr. T. KROKSTRÖM spoke about »The Tertiary intrusive complexes of Western Scotland.»

Meeting January 26th, 1933.

13 persons present.

The following functionaries were appointed:

W. LARSSON, Secretary.

G. WÄNGSJÖ, Treasurer.

Prof. H. BACKLUND spoke about Billitonites.

Mr. T. KROKSTRÖM demonstrated a collection of rocks from the Isle of Arran.

Meeting January 30th, 1933.

5 persons present.

Matters of the society.

Meeting February 16th, 1933.

22 persons present.

Mr. P. THORSLUND gave a lecture on »Contributions to the question of the boundary between the Ordovician and the Gotlandian in Sweden.»

Meeting February 27th, 1933.

26 persons present.

Prof. C. WIMAN spoke about *Grippia longirostris*.

Mr. G. WÄNGSJÖ gave an account of »The Devonian in Podolia.»

Meeting March 17th, 1933.

15 persons present.

Mr. E. GRIP gave an account of »A section in primary rocks in Östergötland.»

Mr. CHR. ENBERG gave an account of »The limestone quarry of Gökum.»

Mr. N. ALBERTSON spoke about »An occurrence of coal balls in the alum-shales of Hunneberg.»

Meeting March 30th, 1933.

21 persons present.

Dr. A. HÖGBOM gave a lecture on »The Precambrian of Northern Sweden and its division.»
